SUMMARY

Software Engineer

This is Yaswanth, a Java Developer, Startup Founder, Writer, and more importantly an Appreciator of things in the field of Technology and Sciences. I have been working on Java related Web Development for over 4 years till now, along side .NET related web development for a span of 5 months. I have experience with multiple languages, applications, irrespective of their Paradigms, architectures, and the hosting environments. I've updated my self right from monolithic applications to the Cloud Microservices, covering various technologies such as Docker, Kubernetes alongside their security measures.

EXPERIENCE

Junior Software Engineer

Netcracker

September 2022 - Present, Bangalore, India

- While Keka HR trusted my abilities and groomed me as a Techie and a Developer
- initially at its startup, Netcracker gave me the exposure on how things work
- in a perfectly organized company, the work ethics and mainly the Real Time
- Coding Experience on the micro-service Products from which multiple Profitable
- companies take Netcracker Services in the domain of Telecommunication.

Full Stack Developer

Keka HR

January 2022 - May 2022, Hyderabad, India

- Full Stack .NET Developer
- Address Keka HR is the first company I've worked with as a Full Stack Developer Intern, with
- Frameworks being .NET & and Angular. It fortunately being a startup, helped in
- understanding how things work in a smaller environment, and my love for startups
- is always inclined since then.

PROJECTS

Junior Developer for Configure Price Quote(CPQ component)

Netcracker • March 2023 - Present

- After a great learning with Order Entry, my company promoted me to work on Cloud Applications after giving best results i could give to the company at Order Entry(with is On premise)

Bookstube

Bookstube • October 2022 - April 2023

- First Productive Social Media application, for book lovers.

Junior Developer for Order Entry

Netcracker • September 2022 - January 2023

- As a Newbie to the company, I was surprised with the amount of exposure I got working for OrderEntry, one of the core Components in Netcracker in the BSS domain.
